

Kiyumí Psychedelic Retreats & Vital Training

6th - 11th of September 2023, Netherlands

We are delighted to invite to our 6-day retreat as part of your Vital Training Program. You are welcome to join our work exploring the mind, body, and soul through a diverse range of practices, while forging connection and community.

Our Setting

The venue Land van Yemaya is an homage to tranquil Dutch countryside, that shows vestiges of its time below the sea with soft patches of sand, while boasting 200 year old oak trees and many different fruit trees including apples, pears, and plums.

About the Retreat

Our retreat facilitates legal, powerful and connective psychedelic processes that deeply explore mind, body, and spirit. The retreat encompasses an in-depth process from preparation to integration and includes a diverse array of holistic practices such as yoga, movement, somatic & sound work, art, and further contemplative and embodiment practices. To support your process you will receive:

- 1 psychedelic journey as journeyer / 1 psychedelic journey as sitter
- 1 on 1 consultations with a facilitator before, during, and after the retreat
- Preparation & Integration (2 group calls, support manuals)
- Daily somatic practices
- Self-inquiry and creative integration workshops
- Unique soundscapes for the journey

Space to Play and Sleep

The venue has a few different types of rooms with majority being shared rooms of 2-3 people. There are also private rooms available, and all bathrooms are shared. There are many outside spaces to relax and enjoy the connection to nature. You can have a morning swim in the lake or dip into it after working up a sweat in the sauna.

Nourishing Meals

The meal plan is specifically adapted to the retreat, taking specific care in nutrition needed before and after your psychedelic journey. Nutrition is important for health and joy in life, and Kiyumi emphasizes delicious and healthy food as part of a happy life. All food is vegan to ensure compatibility for everyone, with further considerations for any individual dietary requirements.
